For Immediate Release

AlaSim International

May 1-3, 2012 • Huntsville, Alabama • USA

Join AEgis Technologies at the AlaSim International 2012 Conference

Huntsville, Alabama (April 19, 2012) – The AEgis Technologies Group will be showcasing its capabilities at the AlaSim International 2012 Conference held May 1-3 at the Von Braun Center in Huntsville, Alabama.

Visit the AEgis booth to learn more about the company's work in modeling & simulation (M&S) and micro/nanoscale technology development. AEgis employees will be discussing M&S products and services, including simulation software and training simulators, geospatial databases, 3D models, war fighter exercise support, systems engineering and analysis, verification, validation, and accreditation (VV&A), test and evaluation support, Hardware-in-the-Loop (HWIL) and Man-in-the-Loop (MIL) simulation. Conference attendees can also learn about Nanogenesis, a division of AEgis Technologies, which excels in advancing cutting edge micro and nanoscale technologies from concept to deployment with applications ranging from defense to energy to biotechnology.

The AlaSim International 2012 Conference is organized by the Alabama Modeling and Simulation Council. The conference is designed both to showcase the breadth and depth of simulation activity in Alabama and to collect, document, display and discuss the current state of simulation technology throughout the world. AlaSim allows a variety of formats for attendees and participants to see, be seen, hear, be heard, teach and learn about the science and technology of simulation. Elements planned for AlaSim 2012 include peer reviewed papers, conference committee reviewed papers, project briefings, panel discussions, workshops, tutorials, student posters and exhibits displaying simulation products and services.

Registration plus full details on the Conference Program and a list of sessions can be found at www.alasim.org.

About The Aegis Technologies Group Inc.

AEgis Technologies is a privately held small business headquartered in Huntsville, Alabama, USA, that provides advanced technology and expert consulting services to industries throughout the world. Aegis specializes in modeling & simulation (M&S) and micro/nanoscale technology development. The company's M&S products and services include simulation software and training simulators; geospatial databases; 3D models; war fighter exercise support; systems engineering and analysis; verification, validation, and accreditation (VV&A); test and evaluation support; Hardware-in-the-Loop (HWIL) and Man-in-the-Loop (MIL) simulation. Aegis' Nanogenesis Division excels in advancing cutting edge micro and nanoscale technologies from concept to deployment with applications ranging from defense to energy to biotechnology.

AEgis has enjoyed steady growth with revenues increasing to \$50+ million in sales and employment of 245 professionals. Aegis has been instrumental in the acceptance of M&S as a profession, as a graduate program of study among many colleges and universities and in the creation of an M&S standards and professional certification across the international M&S professional community-of-practice. Since its founding in 1989, Aegis has been committed to honesty and integrity and has been recognized for its honorable business practices by receiving the Better Business Bureau's Torch Ethics Award. The company's highly skilled work force is dedicated to building lasting relationships and providing superior products and services to our customers.
