For Immediate Release

AEGIS Technologies Hires New Director of Business Development

Huntsville, Alabama (March 30, 2017) – AEGIS Technologies welcomes Mr. Anthony (Tony) Krogh as their new Director of Business Development. Mr. Krogh will focus on growing AEGIS' business at key sites regionally while also serving as the AEGIS Orlando office lead.

Mr. Krogh joins AEGIS following several years as a senior program manager at Lockheed Martin and 30 years' uniform service with the U.S. Army as an Engineer and Simulation Operations Officer. A graduate of the University of Alabama with a degree in Applied Technical Science, Mr. Krogh earned additional master's degrees in Management from Troy University and National Resource Strategy from the National Defense University.

Before retiring from the Army as a Colonel in 2014, Tony held many key leadership positions in operations, training and simulation. His notable duty assignments included serving as the Director of Simulation for both the U.S. Pacific Command and the Army's Aviation enterprise at Fort Rucker, Alabama, along with additional operational duties in combat and the Pentagon. His performance in those key leadership roles ultimately led to him becoming the Army's first centrally-selected Director of the National Simulation Center (NSC) at Fort Leavenworth, Kansas. While at the NSC, his responsibilities included oversight of the home-station mission training complexes and the capability manager (TCM) for the Live, Virtual and Constructive Integrated Training Environment. His wealth of experience both in and out of uniform makes him a vital member of the AEGIS family.

"We're extremely pleased to welcome Tony Krogh to the AEGIS family," said Del Beilstein, AEGIS Vice President of Business Development. "Tony's extensive experience with all aspects of training, simulation and warfighting exercises provides a tremendous asset to our company as well as serving as a knowledgeable resource for our customers."
