For Immediate Release

AEGIS Technologies and Kongsberg Geospatial Partner for 2nd Demo Day

Alexandria, Virginia (March 29, 2017) – AEGIS Technologies and Kongsberg Geospatial are partnering once again to present demonstrations on Next Generation Data Integration and Real Time Geospatial Visualization. Following the success of the March 14 demonstrations during the AUSA Global Force Symposium in Huntsville, Alabama, the two companies will host an additional Demo Day on March 30 at the Kongsberg office in Alexandria, Virginia.

Three demo times are available: 10 a.m., 12 p.m. (box lunch served) and 2 p.m., located at Kongsberg Geospatial, 1725 Duke Street, Suite 600, Alexandria, Virginia, 22314. Refreshments will be provided.

See how the combination of seamless data integration and interoperability, coupled with next generation geospatial visualization, can improve operations and inform decision making across both military and civil domains – all while improving the user experience with a natural user interface.

About The AEGIS Technologies Group Inc.

AEGIS Technologies is a high-tech, privately held small business headquartered in Huntsville, AL, that specializes in both modeling and simulation technology and emerging training solutions for military and commercial applications. Our capabilities include: Warfighter Training and Exercise Support; Test and Evaluation; Geospatial-3D Content; Gaming; Interactive Multimedia Instruction (IMI); Unmanned Air Systems (UAS/UAV/Drone); Unmanned Ground Vehicles (UGV)-Robot Simulators; Custom Training Simulators; Cyber Security-Information Assurance; Directed Energy Sensors; Advanced Technologies; Systems Engineering and Analysis; System Development and Integration; Process Control Automation; Verification, Validation, and Accreditation (VV&A); Test Missiles – MAST-M; Information-Big Data Solutions; and Monarch® Interoperability Solutions.

About Kongsberg Geospatial

Kongsberg Geospatial creates precision real-time software for mapping, geospatial visualization, and situational awareness. The company's products are primarily deployed in solutions for air-traffic control, Command and Control and air defense. With more than three decades of providing dependable performance under extreme conditions, Kongsberg Geospatial has become the leading geospatial technology provider for mission-critical applications where lives are on the line. Kongsberg Geospatial is a subsidiary of Kongsberg Defense Systems.
