### **AEgis Showcasing at I/ITSEC 2010 Conference**

**Orlando, Florida (November 16, 2010)** - AEgis Technologies is showcasing training, simulation and modeling capabilities at the Interservice/Industry Training, Simulation and Education Conference (I/ITSEC) 2010 Conference from November 29-December 2 in Orlando, FL.

AEgis will again be participating as an exhibitor at I/ITSEC, the world's largest modeling, simulation and training conference which boasts nearly 20,000 participants and more than 500 exhibits. The theme for this year's conference is *Training Centric...Readiness Focused*.

Warfighter readiness is the end result of the products and services provided by AEgis Technologies.

Featured in the AEgis' booth #1915 will be:

- Vampire embedded trainer for Small Unmanned Aircraft Systems (S-UAS)
- Modus Mission Planning and After Action Review 3D visualization tool
- Terrain Database Development and GIS Feature Extraction
- High Resolution 3D Models with multiple schemes, damage states and LOD's

"AEgis remains committed to providing quality products and innovative training solutions. I/ITSEC provides us the opportunity to showcase our capabilities as well as keep our finger on the pulse of the needs of warfighters and this industry," said David King, AEgis Vice President of Simulation Development.

Highlights of the week will include in-booth demonstrations and receptions being held at the AEgis booth on Tuesday, November 30, and Wednesday, December 1, from 4-6pm.

### **About AEgis Technologies Group**

AEgis is a privately held small business corporation headquartered in Huntsville, Alabama, that provides advanced technology and expert consulting services to industries throughout the world. AEgis capabilities include Modeling & Simulation software development, training, test support, engineering analysis, hardware design and nanotechnology manufacturing for both government and commercial customers within the United States and internationally.
