AEgis Awarded SNIM Contract

Huntsville, Alabama (September 20, 2010) - Aegis Technologies was awarded as a subcontractor on the recent Software, Networks, Information, Modeling, and Simulation (SNIM) Technical Area Tasks contract. This award was made by 55 CONS at the Offutt Air Force Base in Nebraska.

Nine prime contracting companies were awarded contracts against a \$2B program ceiling to provide research, development, test and evaluation services, and advisory and assistance services related to research and development efforts. Technical area tasks are within software, information technology networks, information assurance, information sharing, knowledge management, and modeling and simulation focus areas.

"AEgis is a provider of cutting-edge modeling and simulation solutions. SNIM provides a vector for a broad spectrum of customers to acquire Aegis analysis and R&D solutions to satisfy their difficult IA, software, and modeling and simulation challenges. This is a tremendous opportunity for Aegis and its customers," Steve Swenson said, Aegis Director of Northeast Operations.

About Aegis Technologies Group

AEgis is a privately held small business corporation headquartered in Huntsville, Alabama, that provides advanced technology and expert consulting services to industries throughout the world. Aegis capabilities include Modeling & Simulation software development, training, test support, engineering analysis, hardware design and nanotechnology manufacturing for both government and commercial customers within the United States and internationally.

Since its founding in 1989, Aegis has been committed to honesty and integrity and has been recognized for its honorable business practices by recently receiving the Better Business Bureau's Torch Ethics Award. The company's highly skilled work force is dedicated to building lasting relationships and providing superior products and services to our customers.
