### **Huntsville Simulation Conference October 26-28**

**Huntsville, Alabama (October 15, 2010)** - The Society for Modeling and Simulation International, in conjunction with its local host the Alabama Modeling and Simulation Council (AMSC), will be holding its annual Huntsville Simulation Conference October 26-28, 2010 at the Huntsville Marriott. The HSC draws a great deal of local participation including industry, academia and government, yet still has international support. With Huntsville being one of America's leading simulation hubs with headquarters and branches of most all of the large companies with M&S interest, the location is a perfect fit.

Classified sessions being held Tuesday, October 26, will discuss Cyber Security. Opening Ceremonies for the conference will begin Wednesday, October 27, with topics including Homeland Security/Societal Defense, Training, Transportation, Scenario Generation, Simulation Standards, Simulation Methodology/Theory/Philosophy, Healthcare Simulation, Test and Evaluation, and VV&A.

Mr. Bill Waite, one of the founding members of the AMSC, and Chairman/CTO of The AEgis Technologies Group said, "It is essential for members of the Modeling and Simulation community to stay abreast of the needs of government, industry and academia and to work together to solve the challenges that inhibit programs moving forward with accuracy, efficiency, and the latest technology. The Huntsville Simulation Conference is one of ways we can collaborate to continue to provide solutions to the hurdles faced by government and commercial industry alike."

More information on the conference can be found at <http://www.scs.org/hsc>.

### **About AEgis Technologies Group**

AEgis is a privately held small business corporation headquartered in Huntsville, Alabama, that provides advanced technology and expert consulting services to industries throughout the world. AEgis capabilities include Modeling & Simulation software development, training, test support, engineering analysis, hardware design and nanotechnology manufacturing for both government and commercial customers within the United States and internationally. Since its founding in 1989, AEgis has been committed to honesty and integrity and has been recognized for its honorable business practices by recently receiving the Better Business Bureau's Torch Ethics Award. The company's highly skilled work force is dedicated to building lasting relationships and providing superior products and services to our customers.
