## **AEgis Awarded Terrain Database Work of KODAK Facilities for Bergmann & Associates**

**HUNTSVILLE, AL, Feb 25, 2008** – AEgis Technologies Group, Inc announced today that is has been awarded a contract for work on the KODAK facilities for Bergmann & Associates

Ultra High Fidelity structures will be created using open source initiatives and cutting edge modeling technology. The use of high resolution satellite and aerial imagery combined with GPS vectored ground photographs allows AEgis to build extensible 3D datasets in rapid time with industry low costs.

“AEgis is on the forefront of taking 3D modeling techniques and military technology and applying them within the commercial sector—thus, making virtualization relevant, current, and affordable within the realms of development, planning, and simulation. The leap of accurate 3D modeling into the geospatial world has happened.” Scott Allman

**About AEgis:** AEgis has 19 years experience in providing expert modeling and simulation consulting services and outstanding products to industries utilizing modeling and simulation throughout the world. We create innovative solutions to challenges requiring specialized modeling and simulation knowledge; expertise in simulation and software development, Simulation integration, and analysis; training simulator development; HLA/DIS technologies; C4I-to-Simulation interoperability; and Modeling and Simulation VV&A programs for software/simulations.
