For Immediate Release

AlaSim International

6-7, May 2014 • Huntsville, Alabama • USA

2014 AlaSim International Conference & Exposition

Huntsville, Alabama (April 3, 2014) - The 2014 AlaSim International Conference & Exposition will take place May 6-7, 2014, at the Dynetics Huntsville Campus.

AlaSim is an annual event that brings together the modeling and simulation community from Alabama, North America and the world. The conference is designed both to showcase the breadth and depth of the latest modeling and simulation activity, and to provide a forum for collecting, documenting, displaying and discussing the current state of M&S technology.

The AlaSim exhibit area is an opportunity for industry exhibitors to display their latest simulation products and capabilities. Plenary speakers and industry experts will present project and program papers/briefings about simulation work planned and in-progress. Workshops will provide an open and collaborative environment for the definition and creation of modeling and simulation products. And tutorials will provide introductory and advanced training in current simulation technology.

AlaSim offers a variety of opportunities for practitioners, vendors, and academia to see, be seen, hear, be heard, teach and learn about the science, technology and business of modeling and simulation.

You can register on-line at <http://www.almisc.org/alasim-reg-branch.shtml>. Federal government employees and active military are eligible for free registration.

For more information: AlaSimProgramChair@almisc.org. AlaSim is organized by the Alabama Modeling and Simulation Council.

About The AEGIS Technologies Group Inc.

Awarded the 2012 Small Business of the Year (Outstanding Small Business category 51-350 employees) and awarded the 2012 Russell G. Brown Executive Leadership Award for excellence in leadership and entrepreneurship for AEGIS President & CEO Steve Hill by the Huntsville/Madison County Chamber of Commerce. Also awarded one of the Top 20 Best Places to Work in 2012 by the Huntsville/Madison County Chamber of Commerce.

AEGIS Technologies is a privately held small business headquartered in Huntsville, Alabama, USA, that provides advanced technology and expert consulting services to industries throughout the world. AEGIS specializes in modeling & simulation (M&S) and micro/nanoscale technology development. The company's M&S products and services include simulation software and training simulators; geospatial databases; 3D models; war fighter exercise support; systems engineering and analysis; verification, validation, and accreditation (VV&A); test and evaluation support; Hardware-in-the-Loop (HWIL) and Man-in-the-Loop (MIL) simulation. Advanced Technologies excels in advancing cutting edge micro and nanoscale technologies from concept to deployment with applications ranging from defense to energy to biotechnology.

AEGIS has enjoyed steady growth with revenues increasing to \$65+ million in sales and employment of 300+ professionals. AEGIS has been instrumental in the acceptance of M&S as a profession, as a graduate program of study among many colleges and universities and in the creation of an M&S standards and professional certification across the international M&S professional community-of-practice. Since its founding in 1989, AEGIS is committed to honesty and integrity and has been recognized for its honorable business practices by receiving the Better Business Bureau's Torch Ethics Award. The company's highly skilled work force is dedicated to building lasting relationships and providing superior products and services to our customers.
