

Terrain Summit™ 08

March 12-13, 2008 | Huntsville Marriott

For Immediate Release:

Keynote Speaker for Terrain Summit 08 named:

The 2008 Terrain Summit is proud to announce the keynote speaker for this year's conference being held March 12-13, 2008 at the Huntsville Marriott. Mr. Stephen Wood, Vice President of US Defense Sales and Business Operations for DigitalGlobe will be presenting the Keynote Address on Wednesday, March 12. Mr. Wood has worked for DigitalGlobe (formerly EarthWatch, Inc.) for the past 8 years. In his previous employment he spent 14 years with the CIA, where his last position was Special Assistant to the Executive Director of the CIA. There he was instrumental in developing and organizing the Agency's Visual Information Initiative (VII). This program's sole objective was to acquire, store and exploit digital imagery for the CIA. Mr. Wood has vast knowledge and expertise working in the field of imagery analytics promises to be outstanding keynote speaker at this year's Terrain Summit.

David King, Director of Simulation for AEGIS Technologies Group and this year's committee chair for the Terrain Summit, expressed his gratitude and excitement regarding Mr. Wood's acceptance as keynote speaker. "We are pleased to have Mr. Wood as the keynote speaker at this year's event. The advances of data acquisition and the important role that imagery plays in both 2D and 3D visualization are key components to our continuing mission at The Summit and in our industry. We look forward to having Mr. Wood share his experiences from the past and domain expertise regarding the vision of the future for this year's attendees."

The Terrain Summit is endorsed by the AMSC, (Alabama Modeling and Simulation Council) and occurs once every two years. This is a targeted event for people working in the Visual Simulation industry. This year's focus will be the ubiquitous use of 3D environments for Defense Simulation, Gaming, Broadcast Media, Interactive Web content and Open Source Initiatives.
